

Load To Go "LTG"

An alternative to LTL & TRUCKLOAD, gives you...

- **Fast deliveries** with truckload type service
- **Damage free** since freight is not rehandled
- **Delivered complete** shipments are not touched from the time of loading until they are received by your customer.
- **More control over deliveries** Better information on actual ETA's because we deliver en route.
- **Better rate structure** and simplified pricing applies to all points

Shipments traveling over the weekend are delivered the beginning of the week.

Like a truckload with stops

We combine 2 or 3 shipments from different customers to make full loads. Deliveries are made in just a few days from the same trailer they are loaded on. You get truckload type service, yet only pay for the space you use

Call today for your next shipment
